---

## Summary

---

Driven and versatile Front-End Developer with extensive experience in building dynamic, user-centric web applications. Adept at using cutting-edge technologies such as React, Next.js, and JavaScript to craft visually appealing and highly functional websites. With a passion for innovative design and seamless user experiences, I consistently deliver high-quality solutions that align with client requirements. Proven ability to collaborate in fast-paced environments, work under tight deadlines, and consistently surpass performance expectations. Seeking opportunities to apply my expertise in a challenging, growth-focused role.

## Experience

---

### Hewlett Packard Enterprise | HPE | Abuja, Nigeria Software Engineer | 01/2025 - 03/2025

- Collaborated with a team of engineers to design and develop software solutions in a dynamic, fast-paced environment.
- Contributed to the development of RESTful web services using Java Spring Boot to manage employee data, ensuring optimal functionality and performance.
- Created and maintained backend solutions to handle JSON data and integrated them with existing systems for seamless communication.
- Led unit testing efforts for Java Spring Boot applications to assess performance and ensure high-quality code and functionality.
- Assisted in creating API documentation and troubleshooting technical issues to ensure the smooth operation of web services.
- Gained hands-on experience with cloud computing, data management, and software engineering best practices.

### Freelancing | Abuja, Nigeria Front-End Developer/Designer | 03/2022

- Developed and designed responsive, user-friendly websites for clients across various industries, ensuring high performance and seamless user experience.
- Utilized modern web technologies such as HTML5, CSS3, JavaScript, React, and Next.js to build scalable and interactive web applications.
- Implemented backend functionalities with APIs, database integration, and server-side logic to enhance website performance and client satisfaction.
- Collaborated with clients to understand project requirements, provide technical solutions, and deliver projects on time, often within tight deadlines.
- Delivered maintenance and updates for existing websites, optimizing for performance, security, and compatibility across browsers and devices.
- Specialize in building custom solutions that meet clients' specific business needs, including e-commerce sites, portfolios, blogs, and landing pages.
- Developed and designed responsive, user-friendly websites for clients across various industries, ensuring high performance and seamless user experience.

## Skills

---

HTML5, CSS3, JavaScript, TailwindCSS, Next.js, Node.js, React, Sass, Bootstrap, Framer Motion, Typescript, Git, Figma, Express.js

## Certificates

---

Front-End Development from Axia Africa, Javascript Algorithms and Data Structures from FreeCodeCamp, Responsive Web Design From FreeCodeCamp , Front-End Development Libraries from FreeCodeCamp

## Additional Information

---

- **Languages:** Fluent in English
- **Professional Development:**  
Actively expanding my skillset with a focus on Full-Stack Development and AI-based solutions. Regularly attend webinars, courses, and participate in hackathons to stay on top of industry advancements.
- **Leadership & Collaboration:**  
Demonstrated strong leadership and collaboration skills while working on both independent projects and team-based development tasks. Frequently act as the main point of contact between clients and technical teams.
- **Interests:** Passionate about technology, innovation, and building solutions that improve everyday life. Actively involved in the tech community through online forums, meetups, and open-source contributions.
